AUTOGLASS INSURANCE

[ami.ab.ca](http://ami.ab.ca)

## Discover AMI.

AMI is a separate insurance policy that covers all the window glass on a vehicle which includes windshield, side glass, back glass and roof glass. AMI safeguards you from these high replacement glass costs as average passenger vehicles now have in excess of \$7,000 in window glass parts. With low yearly premiums, convenient monthly payment plan options and low deductibles, can you afford not to have AMI?

## Why buy separate auto glass insurance from AMI?

AMI is separate glass coverage so glass claims with AMI will not affect your primary auto insurance policy. AMI deductibles are also much lower than industry standards, allowing you to have three chips repaired for one \$25 deductible, or if the damage is not repairable, the whole windshield would be replaced for as little as a \$50 deductible.

## Save time and aggravation.

With AMI, there is an easy and simple claims process. Locate one of AMI's preferred service centres listed on [ami.ab.ca/make-a-claim/](http://ami.ab.ca/make-a-claim/).

Choose a shop and contact them directly with your AMI Policy number to start a glass claim. It's that easy!

## A small price for your peace of mind.

Beyond saving you money on increasing premiums or costly repairs, AMI coverage can also save lives. Auto glass is an essential part of the structural integrity in today's sophisticated vehicles. In the event of an accident, a properly maintained windshield can protect all the passengers inside.
